VANSH SAXENA

SOFTWARE DEVELOPMENT ENGINEER INTERN CANDIDATE

Ghaziabad, India | +91 9012562896 | vanshsaxena2007@outlook.com
linkedin.com/in/vansh-saxena-180402365 | github.com/VanshSaxena1307

PROFESSIONAL SUMMARY

Computer Science undergraduate with hands-on experience building web applications and Python-based solutions. Skilled in React, JavaScript, backend development and database fundamentals, with a focus on clean implementation, debugging and practical problem-solving. Seeking a Software Development Engineer internship.

TECHNICAL SKILLS

Languages: C, C++, Python, JavaScript
Frontend: HTML5, CSS3, React.js, Tailwind CSS, Vite
Backend & Databases: Node.js, Express.js, REST APIs, MySQL, PostgreSQL
Developer Tools: Git, GitHub, VS Code, Figma
Additional: Python Automation, API Integration, Debugging, Prompt Engineering

EXPERIENCE

Python Development Intern — Deloitte (Virtual) | June 2025

- Wrote Python scripts to transform and standardize JSON data for structured data-handling tasks.
- Practised debugging and testing to validate script behaviour and improve reliability.
- Worked through simulated client projects in a technology consulting environment.

SELECTED PROJECTS

HAJIRI — Attendance & Exemption Management System | Working Prototype

- Building a role-based platform for students, teachers, mentors and HODs, with separate workflows and role-specific access.
- Designed attendance marking, exemption submission and review, supporting-document handling, notifications and holiday workflows.
- **Tech:** React, Vite, Tailwind CSS, Node.js, Express.js, PostgreSQL, Drizzle ORM.

Climora — Weather Application | React, JavaScript, Weather API

- Built a location-search weather application that displays current temperature, humidity and wind speed using a live weather API.
- Implemented API-driven data display and deployed the application on Vercel.

Live: climora-living-weather.vercel.app

Expense Tracker | HTML, CSS, JavaScript

- Developed a browser-based expense tracker with categorized transactions and real-time balance calculations.
- Deployed the application on Vercel.

Live: expense-tracker-psi-brown-79.vercel.app

SOC Analytics — Security Incident Detection & Analysis Lab | HCL Training

- Worked on a simulated security-monitoring lab using clearly labelled test data and a Windows-based virtual environment.
- Explored Python-assisted event analysis and an automated workflow for identifying and reviewing security incidents.

EDUCATION

B.Tech, Computer Science & Engineering — ABES Engineering College, Ghaziabad | 2025–2029
Class XII (CBSE): 84.20% — Jaycees Public School, Rudrapur | 2025
Class X (CBSE): 96.60% — Jaycees Public School, Rudrapur | 2023

TRAINING & CERTIFICATIONS

Cyber Analyst Training — HCL | Web Development Course — CodeWithHarry
AI Tools Workshop — Be10x | HTML, CSS, JavaScript & React.js Certifications — Simplilearn

LEADERSHIP

- Led technical operations and logistics for a school programme involving 15+ participants; coordinated with 12–15 peers for smooth execution.
